

Donate Your Equipment

Seeding Labs is dedicated to building strong, sustainable institutions with scientific leaders who can advance their research and lead their nations into the future.

Your donations help support enhanced workforce training, stronger research, and a more equitable world of innovation and development.

Before you donate, please ensure your equipment:

- Is in good working condition
- Has all parts, including software, cords, and plugs
- Is safe to handle and decontaminated

The Global Impact of Equipment

We put the tools of modern science into the hands of scientists in developing countries so that they can **teach, learn, innovate, and lead.**

Through our flagship Instrumental Access program, we've provided laboratory equipment to **116** institutions in **42** developing countries with a replacement value of more than **\$53 million.**

With **265 corporate partners** in the life sciences sector, we're building a global community of innovators.

You can join us—learn how at seedinglabs.org/partner-with-us

Support strong, sustainable, and locally-led development by donating your new or gently-used equipment, including but not limited to:

Analytical Instruments

- ▶ Chromatographs (gas, liquid, ion)
- ▶ Meters (pH, Conductivity, DO)
- ▶ Microscopes (light, dissecting, fluorescent)
- ▶ Spectrometers (UV/Vis, mass, microplate readers)

Genes & Proteins

- ▶ Electrophoresis systems & power supplies
- ▶ Electroporators
- ▶ Gel imaging systems
- ▶ Sequencers
- ▶ PCR and real-timePCR

Sample Preparation & Manipulation

- ▶ Autoclaves (benchtop)
- ▶ Freeze dryers/ lyophilizers
- ▶ Grinders
- ▶ Homogenizers
- ▶ Microplate washers
- ▶ Microtomes
- ▶ Rotary evaporators
- ▶ Shakers and orbital shakers

General Laboratory Equipment

- ▶ Analytical balances
- ▶ Centrifuges
- ▶ Consumables (full, unopened cases less than 1 year expired)
- ▶ Desiccators
- ▶ Hoods and biosafety cabinets
- ▶ Pipettors
- ▶ Vacuum pumps
- ▶ Water purification systems

Temperature-controlled Environments

- ▶ Incubators
- ▶ Ovens & muffle furnaces
- ▶ Refrigerators/freezers
- ▶ Ultra low freezers (less than 10 years old)

Cell Growth & Handling

- ▶ Bottle rollers
- ▶ Cell counters (automated)
- ▶ Colony counters
- ▶ Flow cytometers

Ready to Take the Next Step?

To donate your equipment or discuss ways we can partner, please contact Jennifer Raymond, Director of Corporate Relations at equipment@seedingslabs.org
